Questions about publishing in the sciences? Interested in cross-disciplinary collaborative research? Wonder what a journal editor thinks about grad student submissions? 
Don’t miss this workshop!

Interdisciplinary Academic Journal Publishing in the Sciences

Thursday, May 20, 12 - 1 p.m.
Crerar Library Conference Room (Lower Level)

FREE lunch!

Students with disabilities who need special accommodations should contact Graduate Student Affairs in advance, at (773) 702-6093.

Panelists:

* **Sam Armato**, Associate Professor of Radiology and the Committee on Medical Physics. Professor Armato is on the Editorial Board of the journal *Medical Physics*, and chairs the professional society committee that oversees the business management of this journal.

* **Patricia Morse**, University of Chicago Press, Managing Editor of *The American Naturalist*, the top journal in ecology and evolutionary biology, in which almost a quarter of the published papers have students or post-docs as first authors.

* **Adam Hammond**, Lecturer and Curriculum Director of the Graduate Program in Biophysical Sciences. Professor Hammond studies the structure of mixtures of biological lipids, and develops and teaches courses in this unique interdisciplinary training program.
